Antibacterial: design and safety

Take care of yourself even when you write: the plastic we use on our Antibacterial collection prevents bacteria from settling on pen surfaces and passing from one hand to the other.

Why choose Maxema Antibacterial Pen?

The plastic used is antibacterial

Certified antimicrobial additive releases silver ions and prevents bacteria from settling on the surfaces of the pen.

Bacteria: up to 99,99% less

Laboratory tests have shown that up to 99,99% of the bacteria on the pen are destroyed.

We Care about your health

Some bacteria can cause disease and infections: make your life still safer, even when you write.

MAX-TA2-C-AB-RE

- 1 When Pencil is used and short.
- 2 Gently push in cap at the bottom into the soil.
- 3 Add Water, Sun and Love. Remove the pencil after 3/4 days to allow seed to sprout better.
- 4 Watch it GROW!

Plant a Pencil

Rather than just throwing away your used pencil, make a difference meanwhile enjoying the growing.

SPS-03
